

The Family Nutrition & Physical Activity Screening Tool!

Instructions: For each question, select the answer category that best fits your child or your family. It is important to indicate the most common or typical pattern for your family, and not what you would like to happen.

Family Meals	Never/ Almost Never	Sometimes	Often	Very Often/ Always
1. How often does your child eat breakfast, either at home or at school?	1	2	3	4
2. How often does your child eat at least one meal a day with at least one other family member?	1	2	3	4

19. How often does your child follow a regular routine for your child’s bedtime?	1	2	3	4
20. How often does your child get enough sleep at night?	1	2	3	4

Scoring the FNPA: The total score is used as the summary score on the FNPA. Each item should be scored on a 1 – 4 point scale with a 4 representing the more favorable practice or policy. Note: Items 3,4,5,7, 10, and 13 are reverse coded so values need to be flipped prior to calculations. Cut points or threshold have not been established for determining healthy or unhealthy home environments so researchers and practitioners should use their own discretion when interpreting scores on the FNPA. Contact Dr. Greg Welk for additional information (gwelk@iastate.edu). The tool is managed through a participatory network of researchers who collaborate on research and applications and this network is open to all (see www.myfnpa.org).
